4. FIRST AID MEASURES

Inhalation In case of gases evolving from molten resin, move subject to fresh air. Treat

symptomatically.

Skin Contact In case of pellets or powder, wash with water.

In case of melt, wash affected skin area and clothing with plenty of (soap and) water, seek

medical advice.

Eye Contact In case of pellets or powder, flush with plenty of water for at least 20 minutes. Seek

medical advice if any dust particles still remain.

In case of gases evolving from melted resin of high temperature, flush with plenty of

water for at least 20 minutes. Seek medical advice if necessary.

Induce vomiting. Rinse mouth with water. Seek medical advice if necessary.

5. FIRE-FIGHTING MEASURES

Extinguishing Media Water, Foam, Dry chemical powder Special Fire-Fighting Procedure Self contained breathing apparatus

Fire and Explosion Hazards None

6. <u>ACCIDENTAL RELEASE MEASURES</u>

Methods for Cleaning up Recovery if not contaminated or disposal

Personal Precautions Pellets or powder remained on ground may cause slipping

Environmental Precautions Gather pellets and powder thoroughly to avoid birds or fishes taking

from draining water.

7. HANDLING AND STORAGE

Handling Prevent from fire around handling area. Maintain good housekeeping standards to prevent accumulation of dust. To avoid dust explosion resulting from the existence of powder, electrostatics eliminators and grounding should be fixed to such equipments as air transferring pipes, bag filters and hoppers. Use electrically conductive filters for bag

filters.

Storage Keep the material at a cool dry place. Protect from direct sunlight, rain and violent

temperature fluctuation. Fire is inhibited around storage area.
